

## **New awakening**

I tried

Earnestly  
But in vain!  
I close my eyes  
But your enlightened face  
Remains very clear to my ethereal eyes.  
Feelings do not age  
Nor can one stop the dawning  
Or awakening of a new love  
Curiosity and apprehension  
Blend inside my heart

Creating the sweet smell of a new flower.  
Still I try

Nevertheless I no longer care  
If I became weak  
Before your sweet image,  
That became so dear to me

I close my eyes and I sleep

Knowing it is you I am looking for  
It is you I am waiting for  
Beyond the night and the day  
If you will come  
I do not know  
I am happy just to live  
Once again  
The thrilling and motionless feeling  
Of a silent love.
